## News and information

Our next event will be Sue city camping. Don't forget, you need to book. Cost is \$6 per vehicle. Use the following link to book. <https://www.nationalparks.nsw.gov.au/camping-and-accommodation/campgrounds/ohares-campground> Copy and paste the link into your browser. Target species for the weekend will be trout and redfin. Minimum size for redfin is 25cm and 35cm for trout. Whilst the lake has a healthy population of trout cod, they are purely catch and release only and as such will not be a target species. Saturday night will be a barbeque so names to me or a committee member before the 13th Feb please for catering.

March will be Eden and the dinner/presentation night on the Monday will again be fancy dress, there is no theme.

Our last event was Eucumbene. Typical for this time of the year the wind would have blown a dog of its chain throughout the day making fishing difficult to say the least. White caps were the order of the day Friday and Saturday with the weather improving on the Sunday. For a change though, there was little to no tumble weed as in the past. For the first time we held a lure specific event whereby you were only ably to weigh fish caught on a Taipan lure. The event was well supported even if the fish were not co-operative with only 5 presented for weighing on the Saturday evening. Prizes were awarded to the best three fish and the winners were as follows. First Gus 1.38kg, Second Adrian 370gm and Hugh in third with 320gm. Well done. As for the rest of the weekend 20 fish were presented at the weigh-in with a lot more caught but released due to size. No lure really stood out with fish being taken on winged lures of various colours and styles along with hard bodies producing fish as well.

Results for the weekend are as follow:

Men's best Bag, Gus 3 fish, 2.06Kg

Men's best Brown, Alex, 470gm

Men's best rainbow, Ray, 620 gm

Consolation prize, Brian

Ray Law trophy Gus, 1.38Kg

Well done to all who caught fish.

Happy birthday to the following member/members, Ed, Irene and Geoff

**Memberships are now open for the 2024/25 season. Please pay promptly.**

### Mandatory labelling of seafood

Country of origin labelling (CoOL) will soon be mandatory in Australia to give consumers in hospitality settings clear, consistent information about where their seafood comes from.

Australia's federal, state and territory consumer ministers met in November to plan CoOL and voted to introduce the 'AIM' model. Under this model, hospitality businesses will need to show if seafood is either:

- Australian (A)
- imported (I)
- mixed origin (M), if a dish includes both Australian and imported seafood.

Businesses don't need to do anything yet - a transition period will give them time to adjust with more details about the changes coming this year.

These changes will not affect retailers, such as supermarkets - CoOL requirements already apply in retail settings.

The decision comes after \$1.6 million was allocated in the 2022 federal budget to expand the use of country of origin labelling, previously only required by supermarkets and retail businesses.
